

Fish Legalizer

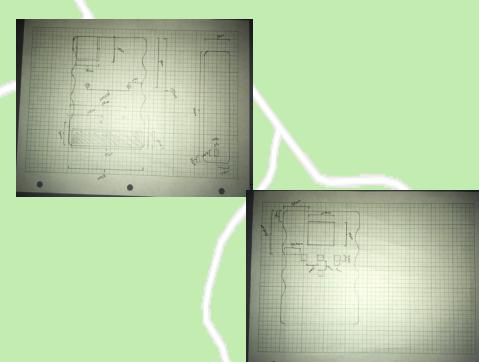

By: Tyler Browning

This project is multifunctional in that it will display the current weight of a fish or other object when places onto the hook and while on the scale menu. It will also tell the user the limits and regulations around fishing and what people can harvest from the lake for 5 of the major lakes in Georgia. These being: Lake Oconee, Lake Lanier, Lake Hartwell, Lake Seminole, and Lake Jackson.

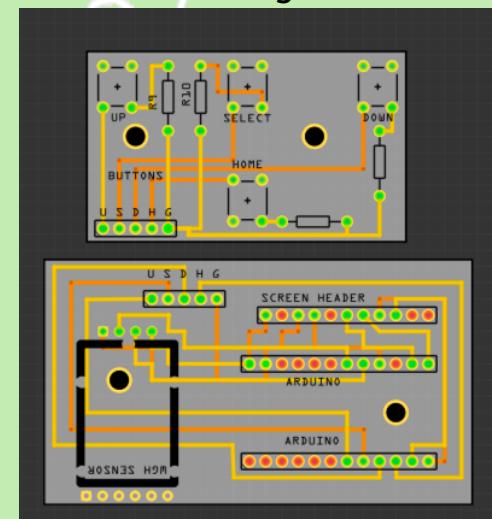

Design Process

Initial Breadboard

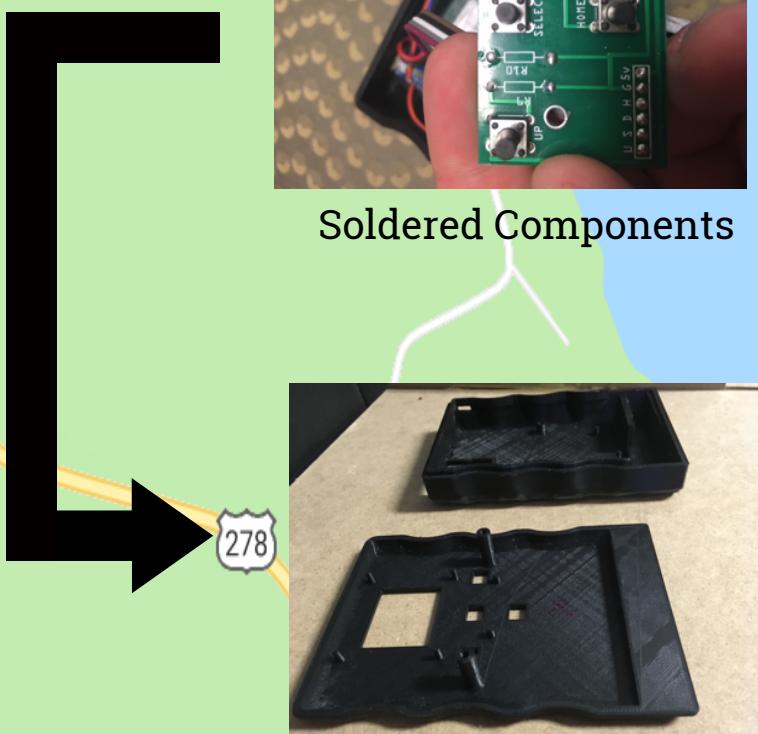

Concept Deminsional Drawings

PCB Design

Soldered Components

Final Instalation

3D Printed Case
